## PROJECTS

### Transcript Summarizer

Jan 2022 - Jan 2022

It was a group Project. Our time efficient solution uses technologies like NLP and ML and summarizes the video content into a text passage to greatly improve the learning experience of the user whilst consuming their least possible time.

### M.A ROADLINES

Aug 2021 - Sep 2021

<https://maroadlines.000webhostapp.com>

In this personal project I've created and hosted a website which gives basic information and contact details of transport agency in Hyderabad, India.. Named as "M.A ROADLINES". This website is being hosted on popular search engines like Google etc.
